

1. TITLE OF THE CERTIFICATE (ES)

**Certificado de Profesionalidad de nivel 3 en
 ELEE0610 GESTIÓN Y SUPERVISIÓN DEL MONTAJE Y MANTENIMIENTO DE REDES ELÉCTRICAS DE BAJA TENSIÓN Y
 ALUMBRADO EXTERIOR**

2. TRANSLATED TITLE OF THE CERTIFICATE (EN)

**Professional Certificate Level 3 in
 ELEE0610 MANAGEMENT AND SUPERVISION OF INSTALLATION AND MAINTENANCE OF LOW VOLTAGE ELECTRICAL
 NETWORKS AND OUTDOOR LIGHTING
 (This translation has no legal status)**

3. PROFILE OF SKILLS AND COMPETENCES

The holder of this certificate will have acquired the **general competence** to manage and supervise installation and maintenance of low voltage electrical networks and outdoor lighting based on a project or technical design, in accordance with set standards and expected quality, ensuring full safety and optimal functioning conditions and environmental protection. This general competence is divided into the following **skills units** (UC):

- Plan and manage installation and maintenance of low voltage electrical networks and outdoor lighting (UC1275_3).
- Supervise and conduct installation of low voltage electrical networks and outdoor lighting (UC1276_3).
- Supervise and conduct maintenance of low voltage electrical networks and outdoor lighting (UC1277_3).

The professional skills are acquired through the **learning outcomes** defined within the related Training Modules (MF):

- Planning and management of installation and maintenance of low voltage electrical networks and outdoor lighting (MF1275_3).
- Supervision and installation of low voltage electrical networks and outdoor lighting (MF1276_3).
- Supervision and maintenance of low voltage electrical networks and outdoor lighting (MF1277_3).
- Practical training at the workplace in management and supervision of installation and maintenance of low voltage electrical networks and outdoor lighting (MP0350).

(See legal basis for all learning outcomes information acquired by the holder of this Certificate in each MF).

As a reference the learning outcomes include in the Practical training at the workplace that complete and reinforce the learning outcomes acquired in the other training modules, are:

- Apply management techniques for installation and maintenance of low voltage electrical networks and outdoor lighting, based on installation and maintenance plans and taking into account health and safety studies.
- Install a low voltage electrical network, based on technical documentation and following safety standards for personal protection and the materials used.
- Install an outdoor lighting electrical network, based on technical documentation and following safety standards for personal protection and the materials used.
- Conduct and supervise commissioning functional and safety tests in a low voltage electrical network, based on applicable regulations and quality standards.
- Conduct and supervise commissioning functional and safety tests in an outdoor lighting electrical network, based on applicable regulations and quality standards.
- Take part in the company's working processes, following the rules and instructions established at the workplace.

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THIS CERTIFICATE

The holder of this certificate may work in companies devoted to installation and maintenance of low voltage electrical networks and outdoor lighting either as an employee or self-employed. The holder may also work in the electrical power generation and distribution industry, in the installation and maintenance of electrical networks. The most pertinent occupations and positions are:

- Technical coordinator of low voltage electrical networks and outdoor lighting.
- Technician for supervision, verification and control of low voltage electrical distribution networks and outdoor lighting.
- Works Foreman for low voltage electrical distribution networks and outdoor lighting.
- Site Manager for low voltage electrical distribution networks and outdoor lighting.
- Team Manager for installers of low voltage electrical distribution networks and outdoor lighting.
- Maintenance Manager of electrical distribution installations and outdoor lighting.

5. OFFICIAL BASIS OF THE CERTIFICATE

Name and status of the national/regional authority providing accreditation/recognition of the certificate

The Ministry of Employment and Social Security or the corresponding autonomous regional administration within the scope of its competence, in the name of the King. The certificate is valid throughout Spain.

Level of the certificate

The Professional Certificate Level 3 of the National Repertoire of Professional Certificates corresponds to level 4 of the International Standard Classification of Education (ISCED-P 2011).

The European Qualification Framework (EQF) level:

Grading scale/Pass requirements

The grading scale and pass level of the training modules are expressed on a scale of 0 to 10. The minimum score for a pass is 5 in every training module including a pass in the practical training at the workplace module.

The grading system is as follows:

- FAIL: 0 to 4.9
- PASS-SATISFACTORY: 5 to 6.9
- PASS-GOOD: 7 to 8.9
- PASS-EXCELLENT: 9 to 10

Access to next level of education/training

This Professional Certificate Level 3 gives access to Professional Certificate Level 3 within the same professional area and family.

For validation purposes, the educational authorities will recognise the professional module or modules of the VET diplomas corresponding to the skills units included in the training modules of this certificate.

Legal basis

Royal Decree 1523/2011 of 31 October, establishing ten professional certificates in the professional family Electricity and Electronics, which are included in the National Repertoire of Professional Certificates.(Appendix V Code: ELEE0610)

6. OFFICIALLY RECOGNISED WAYS OF ACQUIRING THE CERTIFICATE

This certificate may be acquired by:

1. Training: Completion with a pass grade of the face-to-face or online training programme.
2. Recognition of the professional skills acquired through professional experience or non-formal training (prior learning): Completion of a process of skills evaluation and accreditation in all the skills units making up the professional certificate.
3. Dual training: Completion of a training and apprenticeship contract, which may range from 1 year (or 6 months, if stipulated as such in the collective agreement) to 3 years, during which effective working time is combined with time dedicated to training under the training programme for the professional certificate.

The training method (number 1 above) requires successful completion of the training modules and the practical training at the workplace:

Description of vocational training received	Percentage of total programme (%)	Duration (hours)
Training modules	87	540
Practical training at the workplace	13	80
Total duration of training leading to the certificate		620

Entry/access requirements:

- *Bachiller* Diploma (upper secondary education); or
- Professional Certificate Level 2 in the same professional area.
- If neither of the above or higher certifications are held, a pass in the key skills tests.

Additional information: Professional certificates are instruments for official accreditation of the professional qualifications in the National Catalogue of Professional Qualifications for all economic activities, within the scope of the labour administration. The National Repertoire of Professional Certificates is divided into three qualification levels (Level 1, Level 2 and Level 3), and by sectors into 26 professional families and 102 professional areas. More information is available at: www.sepe.es

National Europass Centre: www.oapee.es

(*) **Explanatory note:** This document is designed to provide additional information about the specified certificate, but has no legal status in itself. The format of the description is based on the following texts: Council Resolution 93/C 49/01 of 3 December 1992 on the transparency of qualifications; Council Resolution 96/C 224/04 of 15 July 1996 on the transparency of vocational training certificates; and Recommendation 2001/613/EC of the European Parliament and of the Council of 10 July 2001 on mobility within the Community for students, persons undergoing training, volunteers, teachers and trainers.
