

1. TITLE OF THE CERTIFICATE (ES)

**Certificado de Profesionalidad de nivel 3 en
ELEM0211 GESTIÓN Y SUPERVISIÓN DEL MONTAJE Y MANTENIMIENTO DE SISTEMAS DOMÓTICOS E INMÓTICOS**

2. TRANSLATED TITLE OF THE CERTIFICATE (EN)

**Professional Certificate Level 3 in
ELEM0211 MANAGEMENT AND SUPERVISION OF INSTALLATION AND MAINTENANCE OF HOME AND BUILDING
AUTOMATION SYSTEMS
(This translation has no legal status)**

3. PROFILE OF SKILLS AND COMPETENCES

The holder of this certificate will have acquired the **general competence** to manage and supervise installation and maintenance of home and building electronic systems (HBES), fulfilling quality criteria, complying with the company's occupational and environmental risk prevention plans, and applicable regulations. This general competence is divided into the following **skills units** (UC):

- Manage and supervise installation of home and building automation systems (UC1820_3).
- Manage and supervise maintenance of home and building automation systems (UC1821_3).
- Parameterise and implement home and building automation systems (UC1822_3).

The professional skills are acquired through the **learning outcomes** defined within the related Training Modules (MF):

- Management and supervision of installation of home and building automation systems (MF1820_3).
- Management and supervision of maintenance of home and building automation systems (MF1821_3).
- Parameterisation and implementation of home and building automation systems (MF1822_3).
- Practical training at the workplace in management and supervision of installation and maintenance of home and building automation systems (MP0446).

(See legal basis for all learning outcomes information acquired by the holder of this Certificate in each MF).

As a reference the learning outcomes include in the Practical training at the workplace that complete and reinforce the learning outcomes acquired in the other training modules, are:

- Prepare installation programmes for home and building automation systems.
- Conduct supervision and repair of faults or breakdowns, using procedures, means and tools with safety conditions and the quality required.
- Conduct parameterisation of equipment and elements of home and building automation systems.
- Apply commissioning techniques for home and building automation systems.
- Apply integration techniques of home and building automation systems with access to communication networks, electronic equipment and other devices.
- Take part in the company's working processes, following the rules and instructions established at the workplace.

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THIS CERTIFICATE

The holder of this certificate may work in the areas of installation and maintenance of electrical installations, in charge of personnel of a lower level. The holder may also work in the home and building automation sector, in installation and maintenance of home and building automation equipment and systems. The most pertinent occupations and positions are:

- Team Manager for supervision of home and building automation system maintenance.
- Team Manager for supervision of home and building automation system installation.
- Organisation of home and building automation system maintenance technician.
- Commissioning of home and building automation systems technician.
